

Welcome to Indian River State College's Virtual Campus, where you can earn your degree completely online.

Our convenient programs can meet your scheduling needs, whether you are working full time, raising a family, or live too far from one of our campuses.

We offer the Associate in Arts degree program and the Associate in Science degree in Business Administration, Computer Information Technology, and Health Information Technology.

We also offer eight Baccalaureate degrees in Business Administration, Criminal Justice, Education, Information Technology Management and Cyber Security, Middle Grades Mathematics, Nursing, Organizational Management, and Public Administration.

Virtual Campus courses are created by nationally-certified faculty members using Quality Matter standards, an industry leader in online classroom quality assurance. Our courses maintain the personal touch that IRSC's face-to-face classrooms are known for. Students in online classes will experience the same respected, regionally accredited, high quality education that traditional students receive.

Additionally, Indian River State College tuition is affordable and costs significantly less than other state institutions.

Call an admissions officer to find out how the Virtual Campus is right for you.
